Custom powerlift partitions

reconfigure

Skyfold Custom powerlift partitions are changing the way we view and use space. Our innovative retractable wall systems combine state-of-the-art design and acoustic technology with ease of use and customization for rooms of any shape or size.

Their unique design helps make the most of any space. The system is stored in the ceiling cavity. This not only frees up unusable floor space, but provides the room with an enhanced look, as there are no wall or floor tracks in sight!

Skyfold allows you to reconfigure rooms in minutes – without manipulation – which means lower labor costs and less wear and tear.

Significant cost savings are also realized as less structural steel is required with Skyfold.

"Skyfold is far ahead of anything we've ever come across. Its innovative system is so simple to operate, we can change the configuration of a room while it's in use. Watching the wall rise on demand (to unveil a new product in the next room) never fails to impress."

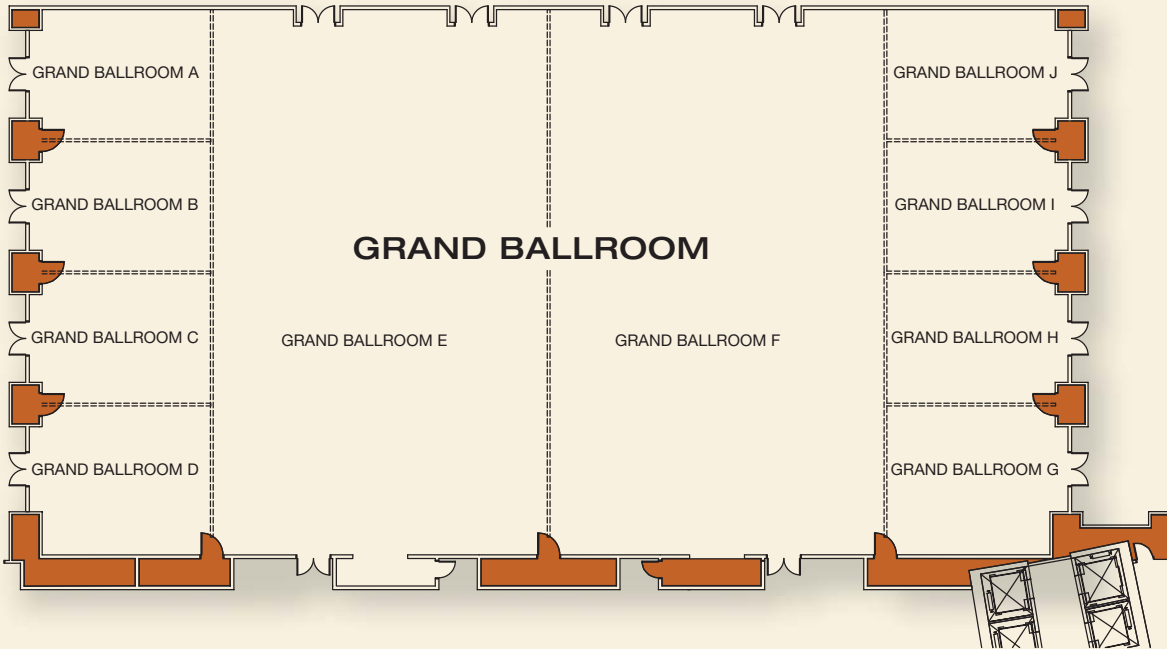

ENDA O'MEARA, CROWNE PLAZA DUBLIN

YOUR HALL

TRADITIONAL WALL CONFIGURATION

Each room has its own storage cavity. New configuration requires manpower and scheduled time.

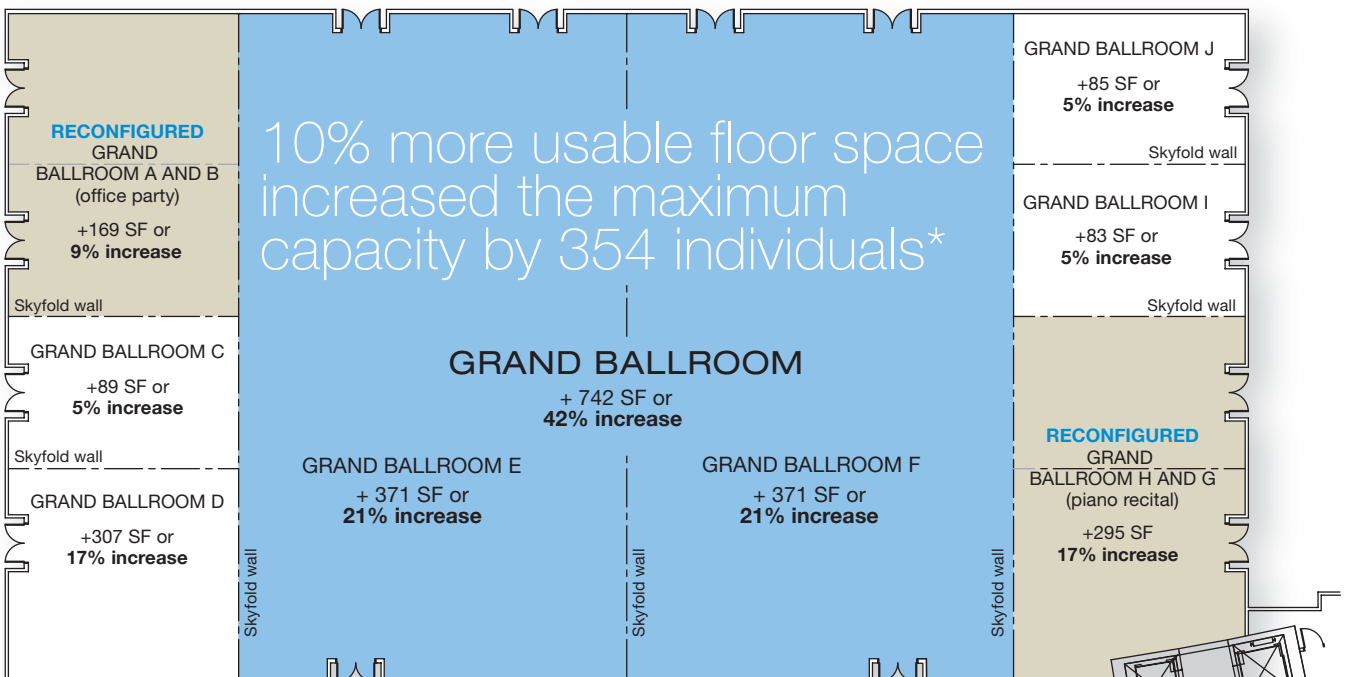

case study

THE OMNI GRAND BALLROOM, FORT WORTH, TEXAS

SKYFOLD WALL SYSTEM

Each room now has SIGNIFICANTLY MORE SPACE. New room configurations are just a turnkey operation away.

* Based on standing capacity as per fire code. This increase in floor space can also translate into an additional 253 chair capacity.

Skyfold Custom powerlift partitions are specially designed to adapt to any environment and meet the most demanding architectural requirements. The partitions are available in a variety of beautiful finishes and create a lasting impact on guests especially when they are in operation. With more choice, better design and simple operation, Skyfold offers partition solutions tailored for the hospitality sector.

TURKEY

operation

With its user-friendly turnkey operation, Skyfold's Custom powerlift partitions allow you to reconfigure your room quietly and effortlessly in minutes, not hours! Because of their unique design, the partitions never need to be physically handled. This not only enhances the durability of the system, but also allows it to maintain its original look for a much longer period of time.

"Skyfold is not only beautiful, it's incredibly quick and easy to operate. It used to take 5 people about 45 minutes to reconfigure a room. Now we can switch from daytime settings to evening events in no time!"

ENDA O'MEARA, CROWNE PLAZA DUBLIN

Skyfold Classic powerlift walls feature the latest advancements in sound insulation technology (yielding a remarkable acoustic rating of 51 STC), allowing different events to be held in close proximity without inconveniencing anyone in the adjacent room.

“The Skyfold wall offers surprising soundproofing qualities. You can hardly tell when both rooms are in use at the same time. It’s amazing!”

PARTS: 10 years or 5,000 cycles, whichever occurs first from date of shipment

SKYFOLD CUSTOM POWERLIFT PARTITIONS LEED THE WAY

Skyfold is pleased to be an official member of the U.S. Green Building Council. The Green Council is committed to promoting better designed buildings that are not only more environmentally and socially responsible, but also help improve the quality of life for those who occupy them and the communities in which they are built. The council has developed a benchmarking system known as LEED (Leadership in Energy & Environmental Design). It has several categories and is used in evaluating the appropriateness of specific projects via a points system.

Skyfold Custom Powerlift Partitions are constructed using as much as 97% recycled materials, offering tremendous advantages and opportunities to earn LEED points.

When it comes to recycled materials, architects and owners who choose a Skyfold Custom Powerlift Partition system can calculate the following toward LEED accreditation on their projects.

- Recycled materials **Up to 97%**
- Post-consumer **Up to 35%**
- Pre-consumer **Up to 65%**

In order to continue protecting our environment, it is essential that we all do our part by using recycled materials whenever possible. Skyfold is proud to help.
